** You have control over how you respond to others*

** "Change is an opportunity, never a threat" – how to develop the positive mindset that embraces change and overcomes fear*

** Why being honest, calm, compassionate and forgiving contributes to healthy and rewarding relationships*

** Achieve success through selflessness – it takes courage, commitment and knowing "it's not all about me"*

** Something good always comes from the worst adversity – you simply have to look for it and embrace it*

** Men and women are not wired differently – but they're often-times programmed differently – learn how to think like a human, not by 'gender', and achieve a balanced, consistent mindset*
